

Project introduction

con2 Multi-layer Connected Factories
Facts with Hybrid conventional and digital components

Co-funded by the
European Union

eitmanufacturing.eu

31. 3. 2023

ConFacts Mission

- ConFacts helps industrial companies leverage the potential of digital transformation.
- Project focus
 - Smart production ecosystems
 - IIoT, edge computing
 - Data analytics
- Training
 - Electronic contents – Learning Paths
 - On-site workshops
- Up-skilling of the technical personnel

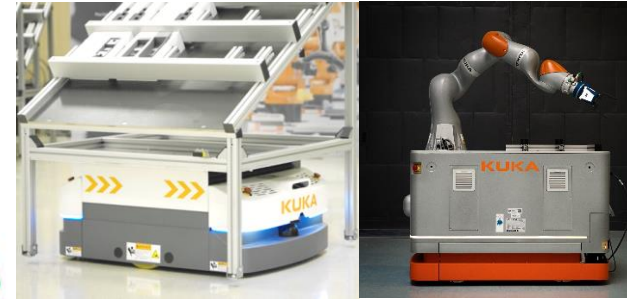

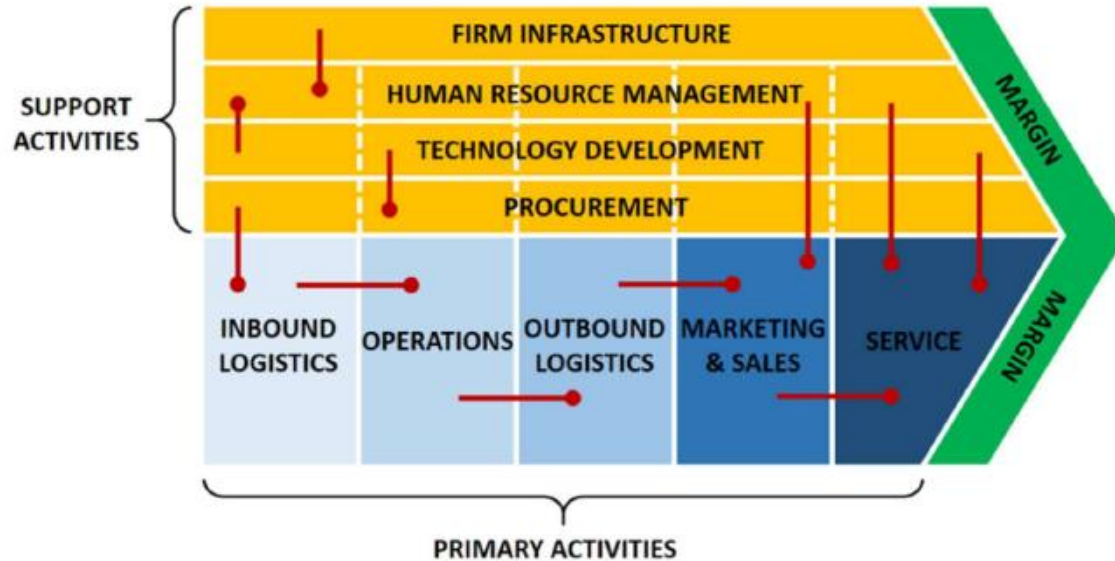

Project partners

- Institute for Systems and Computer Engineering, Technology and Science, Portugal
- INEGI, Portugal
- Joanneum Research, Austria
- Pannon Business Network, Hungary
- Czech Institute of Informatics, Robotics and Cybernetics

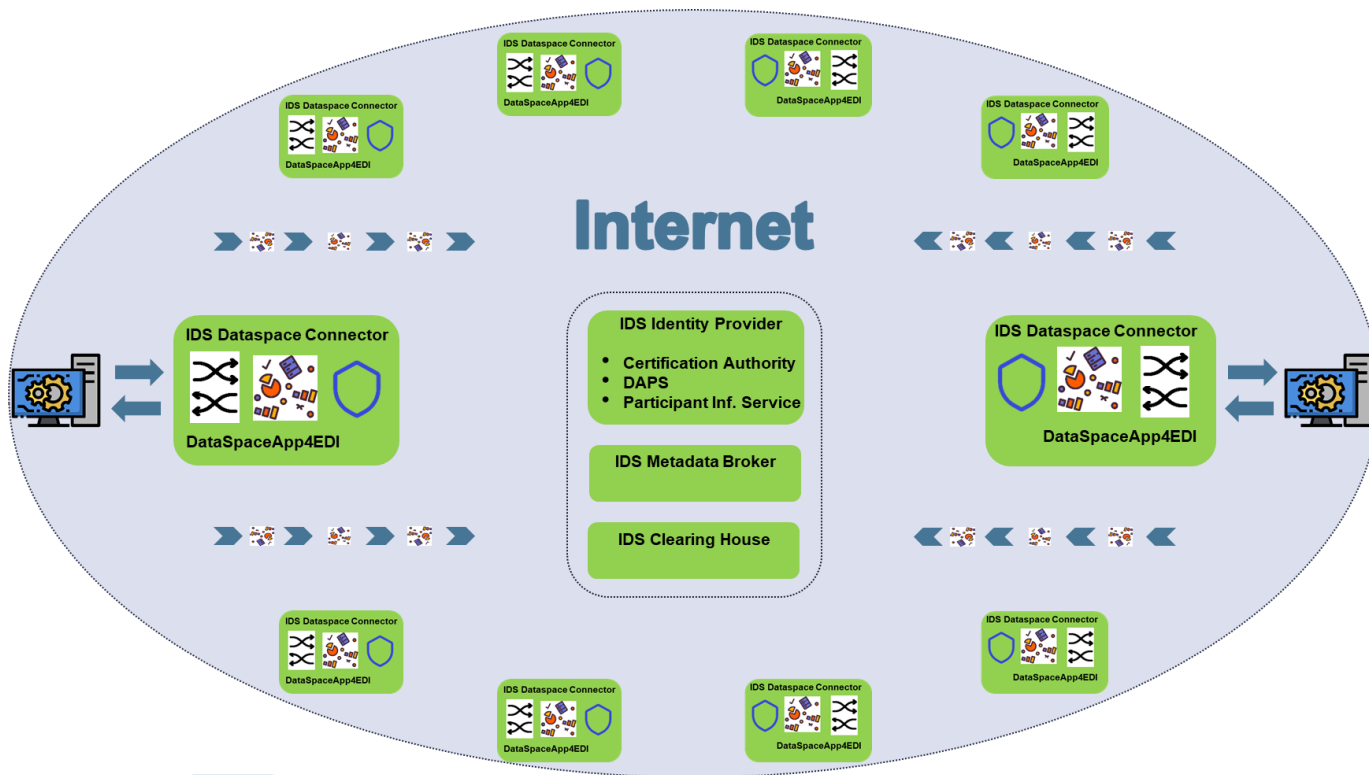

Interconnected factories

- Learning path will focus on the value chain

Data sharing in Data spaces

Learning platform

- Blended learning

Co-funded by the
European Union
